

# Manage and safeguard your institutional assets

Preserve your institution's assets with a solution that ensures long-term access, easy management, and state-of-the-art discovery.

See how Specto for preservation secures long-term access to your library's digital collections →

## Management process

Your library curates and safeguards special collections

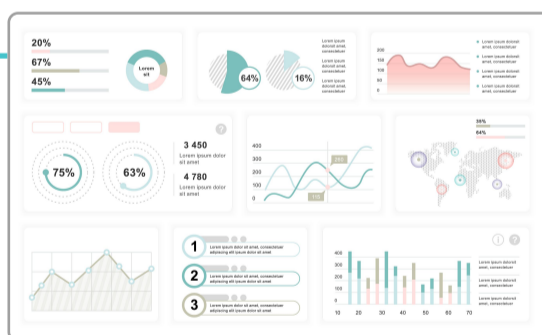

The preservation process monitors for bit corruption and obsolete formats to prevent data loss, and assists in migrating to safe formats for perpetual access

File validity <span>✓</span>	File validity <span>✓</span>
File integrity <span>✓</span>	File integrity <span>✓</span>
Supported format <span>✗</span>	Supported format <span>✓</span>

## Analytics

Librarians monitor collection health, manage risks, and track usage data

## End-user journey
